

Save the date

Paris, City Hall, may 7th 2010 :
PremUp scientific symposium program

“Current knowledges and perspective of research on the placenta”

1. Differentiation of the trophoblast

- 9:00-9:30 **Paul Bischof** Prof Hormone Therapy Laboratory, University of Geneva , Switzerland
Trophoblast and human implantation
- 9:30-10:00 **Danièle Evain Brion** Director Inserm U767, Normal and pathological pregnancy,
University of Paris Descartes, Paris
Human trophoblast differentiation
- 10:00-10:30 **Graham Burton** Prof of reproductive biology, University of Cambridge, UK
Trophoblast stress and complications of pregnancy
- 10:30-11:00 **Jean Paul Renard** Director INRA UMR 1198 ENVA - Developmental Biology and
Reproduction, Jouy en Josas, France
Biology of the trophoblast in cloned animals

Coffee break

2. Pathology of pregnancies

- 11:30 -12:00 **Christopher Redman** Departement of Gynaecology and Obstetrics, University of
Oxford, England
Preeclampsia
- 12:00-12:30 **Irene Cetin** Hospital Luigi Sacco University of Milan, Italy
Intrauterine growth retardation
- 12:30 -13:00 **Annetine Staff** Prof, faculty of Medicine, University of Oslo, Norway
Bank of sera and placental pathology

Lunch

Young investigators supported by PremUP

- 14:30-15:15 **Severine Degrelle**
Bovine trophoblastic cells characterization
- Olivier Morel**
Premimage and uteroplacental blood flow

Guillaume Pidoux
cAMP signaling and trophoblast fusion

Break

3. New direction in placental research

15:30 -16:00 **Philippe Le Bouteiller** Research Director, Inserm U563, University Paul Savatier, Toulouse, France
Immunology of pregnancy

16:00-16:30 **Jean Michel Foidart** Prof of gynaecology obstetrics, University of Lieges, Belgium
The uteroplacental vascularisation

16:30 -17:00 **Olga Genbacev** Prof of Biology, University of California, San Francisco, USA
Placenta and stem cells

17:00

Lola, the little prince and I : Audiovisual show (8 minutes) by Danièle and Christian Brion with the participation of Christopher Redman giving the opportunity to the placenta to express himself.

Information and registration on line : from November 2009 www.premup.org
